

HOW TO find a carbon:

THIS CATALOGUE IS DIVIDED INTO TWO MAIN SECTIONS DISPLAYING TWO TYPES OF CARBON BRUSHES: THOSE WITH HOLDERS AND THOSE WITHOUT. PLEASE REFER TO THE FLOWCHART BELOW WHICH EXPLAINS HOW TO USE THIS CATALOGUE TO FIND SPECIFIC CARBON BRUSHES QUICKLY AND EASILY.

IS CARBON IN A HOLDER?

YES

1) SIZE MATCH (part number order).
Go to pages **6 to 19** and compare the carbon to the drawings.
Drawings are all ACTUAL size - so carbons can be placed on the drawings for an immediate comparison.
This section is ordered by PART NUMBER.

2) PHOTOGRAPHIC MATCH (PART NUMBER ORDER).
Go to page **2** and compare the carbon to the photographs - check possible matches by turning to the page indicated.
Drawings are all ACTUAL size - so carbons can be placed on the drawings for an immediate comparison.
This section is ordered by PART NUMBER.

3) PHOTOGRAPHIC MATCH (OEM ORDER).
Go to pages **3 to 4** and compare the carbon to the photographs of OEM (e.g Indesit) carbons - check possible matches by turning to the page indicated.
Drawings are all ACTUAL size - so carbons can be placed on the drawings for an immediate comparison.
This section is ordered by OEM.

4) PHOTOGRAPHIC MATCH (MOTOR MANUFACTURER ORDER).
Go to page **5** and compare the carbon to the photographs of Motor Manufacturer (e.g Caset) carbons - check possible matches by turning to the page indicated.
Drawings are all ACTUAL size - so carbons can be placed on the drawings for an immediate comparison.
This section is ordered by MANUFACTURER.

NO

Go to pages **20 to 29** and compare the carbon to the drawings.
Drawings are all ACTUAL size - so carbons can be placed on the drawings for an immediate comparison.

This section is ordered by carbon WIDTH.

Important note.
Whilst every endeavour has been made to include all OEM & Motor manufacturer information in the respective content pages - method 1 "SIZE MATCH" should always be tried if there appears to be no match.
